Introduction

This storyboard outlines the design and instructional flow of the First Week Ready Mobile App Prototype (MAP). The prototype is designed to support new employees during their first week by introducing key expectations, communication strategies, and workplace behaviors. The design incorporates mobile learning principles such as chunking, learner control, and interactive assessment to enhance engagement and retention.

Tool Used for Prototype Development

This Mobile App Prototype (MAP) was developed using Microsoft PowerPoint. PowerPoint was selected due to its ability to simulate mobile app functionality through hyperlinks, action buttons, and interactive slide navigation. This tool allows for the creation of a self-contained, cross-platform prototype that mimics real-world onboarding applications.

Slide	Title	Objective	Screen Content	UI / Design	Audio / Notes
1	Welcome / Entry Screen	Introduce onboarding and set expectations	Welcome to First Week Ready Your guide to success during your first week	Start button centered, clean layout, fade in animation	Welcome narration introducing module purpose
2	Main Menu	Provide learner control	Start Learning Scenario Activity Knowledge Check	Card style buttons with icons, menu icon visible	Guide learners on navigation options

Running head: FIRST WEEK READY STORYBOARD

3	Company Overview	Provide organizational context	Mission and values Teamwork, accountability, communication	Icon row, swipe interaction	Explain organizational values
4	Understanding Role Part 1	Introduce expectations	Ask questions Know reporting structure Understand responsibilities	Swipe cards with icons	Explain first week expectations
5	Understanding Role Part 2	Expand communication expectations	Communicate clearly Professional tone Active listening Ask questions	Checklist style layout, progress bar	Emphasize importance of communication
6	Communication Mini Lesson	Model effective communication	Watch example of communication	Embedded video frame	Explain purpose of example
7	Knowledge Check 1	Reinforce learning	Which is effective communication? A Silent B Ask questions C Ignore instructions	Interactive buttons with flip feedback	Immediate feedback provided
8	Teamwork Scenario	Apply knowledge	Team member struggling scenario with choices	Scenario box and buttons	Apply teamwork concept
9	Feedback	Reinforce behavior	Support teamwork and communication	Success banner and icon	Highlight key takeaway
10	Policies and Procedures	Introduce compliance	Follow policies Understand procedures	Minimal text, icons	Voiceover explanation
11	Compliance and Safety	Emphasize safety	Follow safety guidelines Report concerns	Alert style layout	Explain importance of safety

12	Final Knowledge Check	Assess understanding	Question on first week expectations	Progress bar, final check	Final assessment feedback
13	Completion	Close module	Congratulations message	Completion badge and return button	Closing encouragement

Assessment Alignment

The instructional design incorporates formative and summative assessments. A knowledge check reinforces communication concepts, while a scenario-based activity allows learners to apply teamwork skills in a realistic context. A final knowledge check evaluates overall understanding. Immediate feedback is provided to support learning and retention.
